

## **Construction Crew Leader**

**Spring 2010**

Pay and benefits commensurate with experience

**Job objective:** To bring a high level of craftsmanship and pride to all aspects of landscape construction. Act as liaison between construction management and construction crew. Supervise landscape installation work and direct crew on client and JNL properties

### **Qualifications:**

- 3-5 years experience working on a landscape construction crew
- Ability to lead by example
- Team player with a cooperative, responsible, and energetic attitude
- Able to lift 80lbs
- Experience supervising crews (1-3people)
- Pass DOT Physical and have good driving record
- Able to read a scaled landscape blueprints and layout plan on site
- Understand site grading and drainage techniques and implementation
- Experience with landscape masonry including patio, walkways, driveways, dry and mortared stone wall construction
- Experience with operating earth-moving equipment (bobcat, excavator, dump trucks)
- Knowledge of plants and proper planting technique
- Knowledge of seeded and sod lawn installation
- Working knowledge of irrigation and landscape lighting
- Experience with general carpentry and construction tools
- Ability to communicate professionally with JNL customers and JNL management
- Ability to work independently and take direction with minimal supervision
- Snowplowing experience

### **Job Duties Include:**

- Assure ongoing quality and detail of workmanship thorough the entire construction process
- Schedule deliveries of materials as needed to job site
- Clear and legible record keeping including: completing daily work sheets, tracking materials receipts, and logging crew hours
- Assign tasks and supervise crew on JNL and client properties
- Enforce JNL safety policies on JNL and client properties
- Report daily job status to Construction Manager
- Help to insure crew maintains trucks and equipment
- Other duties as needed and assigned by managers
